FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2005

British Columbia Investment Management Corporation

Pooled Investment Portfolios

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

British Columbia Investment Management Corporation (bcIMC) manages Pooled Investment Portfolios on behalf of governing fiduciaries such as pension fund trustees and other public sector clients. This report contains the financial statements for the Pooled Investment Portfolios for the years (or periods) ending December 31, 2005.

The financial statements of the Pooled Investment Portfolios have been prepared by management of bcIMC and approved by the Chief Investment Officer/Chief Executive Officer. All of the financial statements have been prepared in accordance with Canadian generally accepted accounting principles, and where appropriate, have been prepared on a consolidated basis. The significant accounting policies used in the preparation of these statements are disclosed in note 2 to the financial statements. The statements include certain amounts that are based on management's judgement and best estimates.

bcIMC's Board has established an Audit Committee. The Committee's mandate includes making recommendations on the appointment of the external auditor for the Pooled Investment Portfolios, and reviewing the annual audited financial statements of the Pooled Investment Portfolios and the internal controls over financial reporting. The Committee reviews the recommendations of the internal and external auditors with respect to internal controls and the responses of management to those recommendations, and also meets with management and the internal and external auditors to review annual audit plans.

bcIMC maintains systems of internal control and supporting processes to provide reasonable assurance that assets are safeguarded; that transactions are appropriately authorized and recorded; and that there are no material misstatements in the financial statements. bcIMC's internal control framework includes: a strong corporate governance structure; a code of conduct that includes conflict of interest guidelines; an organizational structure that provides for appropriate segregation of duties and accountability for performance; an enterprise-wide risk management framework that identifies, monitors and reports on key risks; and Board-approved pooled investment portfolio policies and client-approved investment mandates. bcIMC's system of internal control is supported by internal and external auditors who review and evaluate internal controls and report directly to the Audit Committee.

bcIMC's external auditors, KPMG LLP, have full and unrestricted access to the Audit Committee and bcIMC management. KPMG discusses with management and the Committee the results of their audit of the Pooled Investment Portfolios' financial statements and related findings with respect to such audits. Each of the Pooled Investment Portfolio financial statements is audited by KPMG LLP in accordance with Canadian generally accepted auditing standards. KPMG LLP has performed such tests and other procedures as they considered necessary to express an opinion on the Pooled Investment Portfolio financial statements.

Private Placement Fund 1997	Strategic Investment Real Estate Fund
Private Placement Fund 1998	Strategic Investment Public Equity Fund
Private Placement Fund 1999	
(collectively, the "Funds")	

We have audited the statements (or consolidated statements) of net assets and investments of the Funds as at December 31, 2005, and their statements (or consolidated statements) of operations and changes in net assets, and, where presented, of cash flows for the year (or shorter period since establishment as indicated in note 1) ended December 31, 2005. These financial statements are the responsibility of the Funds' Manager. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the Funds' Manager, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements (or consolidated financial statements) present fairly, in all material respects, the net assets and investments of the Funds as at December 31, 2005, and the results of their operations and changes in their net assets, and, where presented, their cash flows for the periods then ended in accordance with Canadian generally accepted accounting principles.

The comparative figures for December 31, 2004 were reported on by the Auditor General of British Columbia.

**BRITISH COLUMBIA INVESTMENT MANAGEMENT CORPORATION
 POOLED INVESTMENT PORTFOLIOS
 NOTES TO THE FINANCIAL STATEMENTS
 FOR THE YEAR ENDED DECEMBER 31, 2005**

1. The Portfolios

British Columbia Investment Management Corporation ("bcIMC") was established under the *Public Sector Pension Plans Act* as a trust company authorized to carry on trust business and investment management services. These financial statements have been prepared by bcIMC and are the responsibility of bcIMC management.

Under the *Public Sector Pension Plans Act* and the *Pooled Investment Portfolios Regulation*, B.C. Reg. 447/99, bcIMC may establish and operate pooled investment portfolios "... in which money from trust funds, special funds or other funds, other public money and the money of government bodies and designated institutions may be combined in common for the purpose of investment by means of investment units of participation in a pooled investment portfolio." In addition, pooled investment portfolios previously established under the *Financial Administration Act* and the *Pooled Investment Portfolios Regulation*, B.C. Reg. 84/86, were continued under the *Pooled Investment Portfolios Regulation*, B.C. Reg. 447/99, to be held in trust by bcIMC and invested by the Chief Investment Officer of bcIMC.

The Bond, Equity, Mortgage and domestic Realpool Funds have the following investment mandates and were established on the following dates:

Pooled Investment Portfolios	Investment Mandates	Dates Established
Canadian Corporate High-Grade Bond Fund	Canadian corporate debentures rated "A low" or higher	July 25, 1991
Canadian Corporate Investment-Grade Bond Fund	Canadian corporate debentures rated "BBB low" or higher	September 24, 2004
Short Term Bond Fund	Canadian federal and provincial government bonds maturing within five years	November 1, 1995
Pension Bond Fund	Canadian federal and provincial government bonds with varying maturing dates	January 1, 1995
Asian Equity Fund	Securities comprising the Morgan Stanley Capital International Pacific Free Net Index	January 2, 1998
European Equity Fund	Diversified portfolio of European securities	January 2, 1998
Indexed European Equity Fund	Securities comprising the Morgan Stanley Capital International Europe Free Net Index	January 1, 2004
International Equity Fund	Diversified portfolio of securities of companies outside of the United States	January 2, 1998
Indexed International Equity Fund	Securities comprising the Morgan Stanley Capital International EAFE Free Net Index	January 1, 2004
Fixed Term Mortgage Fund	Canadian fixed term commercial and multi-family residential mortgages	June 30, 1995
Construction Mortgage Fund	Canadian construction mortgages	December 1, 1995
Specialty Mortgage Fund	Canadian high-ratio construction and mezzanine mortgages	September 28, 1999
Realpool Investment Fund	Diversified Canadian income-producing properties through wholly-owned corporations	July 3, 1991

The International Realpool Funds invest only in non-Canadian real estate-related assets that may include externally managed real estate funds, direct real estate holdings and private real estate companies with a combination of short and longer term investment horizons.

The Private Placement Funds are long term in nature and are generally made in partnership with other investors, outside of the public markets. The partnerships invest primarily in debt and equity investments in domestic and international companies at various stages of development, and are generally related to venture capital, buy-out financing or expansion and development financing.

The Strategic Investment Funds invest primarily in tangible assets with favourable risk-return characteristics that are an attractive match with pension liabilities. Investments cut across traditional asset class boundaries which include private placement, real estate and public equity investments.

Strategic Investment Public Equity Fund	January 1, 2005

2. Significant Accounting Policies

a) Basis of Presentation

The financial statements have been prepared in accordance with Canadian generally accepted accounting principles.

Where the pooled investment portfolio or its investee have a controlling interest in another investment company, the financial statements have been prepared on a consolidated basis as required under Accounting Guideline 18 and include the assets, liabilities, and income from operations of the investment. Inter-organization accounts and transactions are eliminated upon consolidation. Where the pooled investment portfolio or its investee do not have a controlling interest in another investment company, the investment is shown as a portfolio investment at fair value.

A Statement of Cash Flow was not prepared for the pooled investment portfolios where substantially all of the investments are considered highly liquid as the required information is adequately disclosed in the Statement of Operations and Changes in Net Assets.

Certain comparative figures have been reclassified to conform to the current year's presentation.

**BRITISH COLUMBIA INVESTMENT MANAGEMENT CORPORATION
POOLED INVESTMENT PORTFOLIOS
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2005**

2. Significant Accounting Policies (Continued)

b) Valuation

Investments and investment-related receivables and liabilities are stated at fair value. Fair value is an estimate of the amount of consideration that would be agreed upon in an arm's length transaction between knowledgeable, willing parties under no compulsion to act.

Fair value is determined as follows:

- (i) Money market securities values are derived from external market quotations.
- (ii) Bonds, debentures, real return bonds, and public equities (including exchange traded funds) are valued at their closing sale price on the valuation date. Securities not traded on that date are valued at the mean price between the latest bid and asked price. Securities not listed on any stock exchange, or which are traded over-the-counter, are valued in the same manner based on available public quotations from recognized dealers in such securities or at the price estimated by the fund manager to be the fair value. Forward foreign currency contracts are valued at the prevailing forward exchange rates on the valuation date.
- (iii) Derivatives, including foreign currency contracts, are valued based on the quoted market prices for the underlying assets.
- (iv) Mortgages are valued by an independent external source based on a discounted cash flow model that includes a credit risk spread.
- (v) Domestic real estate properties held in the Realpool Fund are valued by the Realpool Investment Fund's external asset managers at the end of each quarter and are formally appraised externally once every ten to eighteen months by accredited independent appraisers. Investments in real estate joint ventures are accounted for by the proportionate consolidation method.
- (vi) Private market investments include investments in the International Real Estate, Private Placement Funds and Strategic Investment Funds, which are held directly, through limited partnerships or through some other co-ownership arrangement. Where quoted market prices are not available, fair value is determined based on the carrying value and other relevant information reported by external managers of the investments. These carrying values are determined by the external managers using accepted industry valuation methods such as earnings multiples of comparable publicly traded companies, discounted cash flows, and third party transactions or other events that suggest a significant change in the value of the investment. In the first year of ownership, cost is generally considered to be an appropriate estimate of fair value unless there is evidence of a significant change in value.

BRITISH COLUMBIA INVESTMENT MANAGEMENT CORPORATION
POOLED INVESTMENT PORTFOLIOS
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2005

2. Significant Accounting Policies (Continued)

c) Income Recognition

Investment transactions are accounted for on a trade date basis. Dividend income is recognized on the ex-dividend date and interest income on the accrual basis. Income on foreign investments is reported net of withholding tax expense. Pursuit costs and brokerage commissions are initially capitalized into the cost of the related investment.

Gains (losses) on the settlement of foreign currency contracts, translation gains (losses) on foreign denominated monetary balances and investments, and gains (losses) on the sale of investments are recorded as net realized gains (losses). Gain (loss) on the sale of investments is calculated as the difference between the sales proceeds and cost, less related disposition costs. The year-over-year change in the difference between the fair value and the cost of the investments and foreign currency contracts held at year end is recognized as an unrealized gain (loss).

The cost used for the calculation of realized gain (loss) and change in unrealized gain (loss) is based on historical cost for private placements and foreign exchange contracts, average cost for equities, cost for real estate, and amortized cost for money market securities, bonds and mortgages. The amortized cost is the cost of acquisition adjusted by amortization of discounts and premiums on a true constant yield basis over the terms of the investments for money market securities and bonds, and on a straight line basis for mortgages.

d) Issue and Redemption of Units

Participation in each pooled investment portfolio is expressed in units, each unit giving its holder a proportionate share in the net assets of the respective pooled investment portfolio. The value of a unit of a pooled investment portfolio is \$1 million. For each subsequent unit issuance and redemption, the unit value is determined by dividing the fair value of the net assets of the portfolio by the total number of units outstanding. Where one pooled investment portfolio invests in another pooled investment portfolio, the unit issuances and redemptions are transacted on the same basis as client transactions. All unit transactions are recorded on a trade date basis.

Most pooled investment portfolios are open-ended funds where the number of units available for issue is unlimited and the proportion of units issued or redeemed by each client on a particular valuation date depends on changes to their desired asset allocation. The Realpool International Funds, Private Placement Funds, and the Strategic Investment Funds are closed-end funds where participation is limited to a prescribed set of unitholders with a specified proportionate share in the net assets at the time the funds were established. All unit transactions for closed-ended pools are participated in by the prescribed set of unitholders based on their pro-rata basis of participation.

e) Foreign Currency Translation

The financial statements of the pooled investment portfolios are presented in Canadian dollars. Assets, liabilities and commitments in foreign currencies are translated into Canadian dollars at the fiscal year-end exchange rate. Investment income and expenses, and purchases and sales of investments are translated at the rate prevailing on the respective dates of such transactions. Realized gain (loss) and change in unrealized gain (loss) includes foreign currency translation gains (losses), which have been footnoted and disclosed in each respective Statement of Operations and Changes in Net Assets.

BRITISH COLUMBIA INVESTMENT MANAGEMENT CORPORATION
POOLED INVESTMENT PORTFOLIOS
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2005

2. Significant Accounting Policies (continued)

f) Income Taxes

Under paragraph 104(6) of the *Income Tax Act (Canada)*, the pooled investment portfolios may deduct from their taxable income any amounts that are distributed to beneficiaries (i.e. unitholders) and taxable in their hands. All income and net taxable capital gains earned by the pooled investment portfolio are distributed to the unitholders through actual cash distributions or an increase in the tax cost of the units prior to the end of the calendar year, resulting in no Canadian taxes payable for the pooled investment portfolios. The corporations held by the pooled investment portfolios are exempt from Canadian tax under section 149 (o.2) of the *Income Tax Act (Canada)*.

The income earned by the pooled investment portfolios and the corporations held by them are exempt from U.S. tax under Section 892 of the *Internal Revenue Code* unless that income is effectively connected to a trade or business in the U.S. Some of the corporations held by the Private Placement, International Realpool and Strategic Investment pooled investment portfolios are subject to U.S. tax on this basis. Any amounts owing for U.S. and state taxes are recorded on an accrual basis as a reduction from investment income.

g) Use of Estimates

Financial statements prepared in accordance with Canadian generally accepted accounting principles require management to make certain estimates and assumptions that can affect the reported balances. In determining the fair value of some of its investments, particularly real estate and private placements, management relies on external appraisers' or fund managers' assumptions regarding investment industry performance and prospects, as well as general business and economic conditions that prevail and are expected to prevail. By nature, these asset valuations are subjective and do not necessarily result in precise determinations. If the underlying assumptions change, the reported fair values may change by a material amount.

3. Changes in Accounting Policy

- a) bcIMC has adopted Accounting Guideline 18 (AcG-18), effective January 1, 2004. Where an investment company has a controlling interest in another investment company (as defined in AcG-18), the underlying investment company should be accounted for on a consolidated basis, or using either proportionate consolidation or the equity method, as appropriate. Otherwise, the investment company should be recorded as a portfolio investment at its fair value. In the prior year, the Realpool Investment Fund, the Realpool International Fund 1999, and the Specialty Mortgage Fund presented all of their investments on a consolidated basis in the financial statements. Under AcG-18, some of these investments are not considered investment companies and therefore, do not meet the criteria for consolidation. These investments have been recorded as a portfolio investment at fair value in the current year and the prior year's financial statements have been restated on a non-consolidated basis.
- b) Effective this fiscal year, the pooled investment portfolios adopted Accounting Guideline 15 - Consolidation of Variable Interest Entities (AcG-15). AcG-15 defines a variable interest entity (VIE) as an entity that either does not have sufficient equity at risk to finance its activities without additional financial support or where the holders of the equity at risk lack the characteristics of a controlling interest. Under AcG-15, the primary beneficiary of a VIE is required to consolidate its interest in the VIE, and is defined as the party that will absorb or receive the majority (defined as greater than 50%) of the VIE's expected losses, expected residual returns, or both.

BRITISH COLUMBIA INVESTMENT MANAGEMENT CORPORATION
POOLED INVESTMENT PORTFOLIOS
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2005

3. Changes in Accounting Policy (continued)

The Private Placement Fund 1996, Private Placement Fund 1998, Private Placement Fund 1999, Private Placement Fund 1999A, 2000 Private Placement Fund and the Strategic Inv 100 Foreign PP Fund are the primary beneficiaries of 10 VIEs, through investments made by them in these entities, and have consolidated these entities in the respective pooled fund financial statements. The pooled investment portfolios have adopted the guideline on a retroactive basis without restatement of prior period's figures. The change in accounting policy has the following effect on the opening total assets, total liabilities and net assets of the respective pooled investment portfolios as at January 1, 2005.

Pooled Investment Portfolios	Increase in Total Assets (in \$ millions)	Increase in Total Liabilities (in \$ millions)	Increase in Net Assets (in \$ millions)
Private Placement Fund 1996	nil	nil	nil
Private Placement Fund 1998	7.1	7.1	nil
Private Placement Fund 1999	5.8	5.8	nil
Private Placement Fund 1999A	2.9	2.9	nil
2000 Private Placement Fund	18.3	18.3	nil
Strategic Inv 100 Foreign PP Fund	nil	nil	nil

Under AcG-15, note disclosure is required where a party has a significant interest in a VIE, which is defined as a party that will absorb a significant portion (defined as 20% - 49%) of the expected losses of the entity, expected residual returns of the entity or both. The following table shows the pooled investment portfolios that have significant interests in VIEs and the amount of the pooled investment portfolio's unfunded contractual commitments pertaining to that investment as at December 31, 2005. The unfunded contractual commitment represents the pooled investment portfolio's maximum exposure to loss above the reported carrying value in the financial statements if all of the contractual commitments are provided and no further amounts are realized from the investment. The VIEs are primarily limited partnerships that invest in private market investments and real estate investments.

Pooled Investment Portfolio	Unfunded Contractual Commitments (in \$ millions)
Realpool International 1999	25.6
Realpool International 2002	1.1
2004 Realpool International Fund	32.3
Strategic Investment Real Estate Fund	nil
Private Placement Fund 1995	4.1
Private Placement Fund 1996	nil
Private Placement Fund 1997	1.6

Pooled Investment Portfolio	Unfunded Contractual Commitments (in \$ millions)
Private Placement Fund 1998	13.6
Private Placement Fund 1999	11.5
2000 Private Placement Fund	nil
2002 Private Placement Fund	9.6
2003 Private Placement Fund	32.5
2004 Private Placement Fund	18.8

POOLED INVESTMENT PORTFOLIOS
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2005

4. Financial Instruments

Financial instruments are legally enforceable agreements between two or more parties, expressing a contractual right or a right to a payment of money. Financial instruments held by the pooled investment portfolios include derivatives, investments and the investment-related assets and liabilities. Financial instruments are exposed to foreign currency, interest rate, market and credit risks.

a) Foreign Currency Risk

The pooled investment portfolios are exposed to currency risk through holding of investments, investment receivables, and investment liabilities in various currencies. Fluctuations in the relative value of the Canadian dollar against these foreign currencies can result in a positive or negative effect on the fair value of the investments, investment receivables, and investment liabilities. The pooled investment portfolios use foreign currency contracts to hedge some foreign currency exposure on investment receivables and liabilities, and engage in the buying and selling of currencies through the spot market, forward contracts, equity index futures contracts, and/or options in order to achieve the desired currency exposure. The net currency exposure is shown in the Statements of Investments for the pooled investment portfolios that hold investments, investment receivables and investment liabilities denominated in foreign currencies.

b) Interest Rate Risk

Interest rate risk refers to the effect on the market value of assets and liabilities due to fluctuations in both long-term and short-term changes in nominal and real interest rates. The pooled investment portfolios that primarily hold money market securities, bonds and mortgages have established duration bands based on their relevant benchmark to avoid undue interest rate risk. The terms to maturity, average effective yield and the nature of the investment are shown in the Statements of Investments for money market securities and bonds to provide further information on interest rate risk.

c) Market Risk

Market risk is the risk that the value of an investment will fluctuate as a result of changes in the market conditions, whether those changes are caused by factors specific to the individual investment or factors affecting all investments. There are established investment criteria for each pooled investment portfolio related to diversification of investments and investment mandates for the external managers to avoid undue market risk. The Statements of Investments show the percentage of investments held in particular industry sectors for publicly traded Canadian and U.S. equities and for mortgages to provide further information on market risk.

d) Credit Risk

The pooled investment portfolios are exposed to a credit risk if a borrower defaults or becomes insolvent or if a party fails to deliver under a contract and the rights to any claims become unenforceable. To avoid undue credit risk, the pooled investment portfolios have established specific investment criteria, such as minimum credit ratings for investees and counterparties and maximum concentrations with given counterparties. The Statements of Investments show the percentage of money market and bond investments held with a particular group of counterparties (i.e. Government of Canada, Province of British Columbia, other provinces or corporations) to provide further information on credit risk.

BRITISH COLUMBIA INVESTMENT MANAGEMENT CORPORATION
POOLED INVESTMENT PORTFOLIOS
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2005

4. Financial Instruments (continued)

e) Fair Value of Investment-Related Assets and Liabilities

Each pooled investment portfolio's investments and derivatives are carried at fair value. The investment-related assets and liabilities are carried at cost. In the opinion of bclMC, the fair values of the investment-related assets and liabilities approximate their carrying values given their short-term nature.

5. Derivatives

Derivative contracts are financial contracts, the value of which is derived from the value of underlying assets or indices. Derivative transactions are conducted in the over-the-counter market directly between the two counterparties or on regulated exchange markets. The pooled investment portfolios use derivative financial instruments, when appropriate, to assist in the management of financial risks, including interest rate, foreign currency, and market risks. The financial derivative contracts entered into by the pooled investment portfolios during the year included foreign currency contracts.

Foreign Currency Contracts

Foreign currency contracts are agreements to exchange a specified amount of one currency for another currency on a specific date in the future for a specified price. In the case of foreign currency contracts, the notional value represents the amount to be exchanged on the future contract date. The fair value of the foreign currency contracts is calculated as the difference between the amount to be exchanged on the future contract date and the amount that would be exchanged using the prevailing forward foreign currency rates. The unrealized gains (losses) on the unexpired foreign currency contracts as at December 31, 2005 are shown as Unrealized Gain or Unrealized Loss on Foreign Currency Contracts on the Statements of Net Assets. The number of foreign currency contracts and respective expiry dates are shown in the schedules, following the Statement of Investments, for each pooled investment portfolio that holds them.

6. Expenses

Custodial fees are applicable to the bond funds, fixed term mortgage fund, private placement funds and equity funds. The mortgage funds pay mortgage servicing and brokerage fees. Management fees are paid to external fund managers by the funds for providing investment management and advisory services. Where management fees are incurred directly by the pooled investment portfolio, they are reported on the financial statements of the fund as external management fees. For most of the private placement pooled investment portfolios, management fees are expenses of the various underlying partnership investments rather than the pooled investment portfolios and not shown on the pooled fund financial statements (unless the underlying partnership is consolidated under AcG-15).

Third party costs that are attributable to a specific pooled investment portfolio are charged to that portfolio and thereby shared on a pro-rata basis by the portfolio unitholders. Other costs initially borne by bclMC are recovered from the various pooled investment portfolios in which clients participate by charging management fees, which are calculated on a cost recovery basis.

BRITISH COLUMBIA INVESTMENT MANAGEMENT CORPORATION
POOLED INVESTMENT PORTFOLIOS
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2005

7. Commitments

Wholly-owned corporations of the Realpool Investment Fund have property purchase and development commitments of \$337.6 million and have issued letters of credit totalling \$12.6 million.

The other pooled investment portfolios have the following commitments for investment contracts as at December 31, 2005. These commitments extend over the life of the limited partnership (usually in the range of seven to ten years from inception):

Pooled Investment Portfolio	Commitments (in \$ millions)
Realpool International 1999	25.6
Realpool International 2002	1.1
2004 Realpool International Fund	108.0
2005 Realpool International Fund	95.2
Private Placement Fund 1995	4.8
Private Placement Fund 1996	1.3
Private Placement Fund 1997	42.5
Private Placement Fund 1998	25.1
Private Placement Fund 1999	52.9
Private Placement Fund 1999A	6.2

Pooled Investment Portfolio	Commitments (in \$ millions)
2000 Private Placement Fund	34.0
2001 Private Placement Fund	29.6
2002 Private Placement Fund	101.9
2003 Private Placement Fund	128.0
2003A Private Placement Fund	52.1
2004 Private Placement Fund	162.7
2005 Private Placement Fund	336.7
Strategic Inv 100 Domestic PP Fund	34.2
Strategic Inv 100 Foreign PP Fund	55.8

8. Termination of Pooled Investment Portfolios

The net assets of the Infrastructure One and Infrastructure Two pooled investment portfolios were transferred to the Strategic Inv 100 Public Equities Fund on January 31, 2005. The units of the pooled investment portfolios were redeemed at an amount equal to the fair value of the net assets transferred on January 31, 2005 and the funds were terminated. The following table shows the net assets transferred and income earned by the pooled investment portfolio for the period:

Pooled Investment Portfolios	Net Assets Transferred (in \$ millions)	Net Income from Operations (in \$ millions)	Realized Gain (in \$ millions)	Change in Unrealized Loss (in \$ millions)
Infrastructure One	156.8	8.6	54.4	45.8
Infrastructure Two	41.2	2.1	4.6	2.5

9. Contingencies

Certain investments of the Realpool Investment Fund may, in the normal course of business activities, be involved in disputes with third parties. bcIMC management assesses the likelihood of loss relating to any disputes and has determined that such disputes would not have a material impact on the net asset value of the Realpool Investment Fund.

10. Subsequent Events

On July 14, 2006, a subsidiary corporation of the Realpool Investment Fund purchased a one-third interest in the Bentall Capital Management LP. Bentall Capital Management LP manages a number of the Realpool Investment Fund's real estate properties on behalf of bcIMC.
